EDUCATION

Texas A&M University

Bachelor of Science in Computer Science, Minor in Statistics: GPA: 3.88

College Station, TX

Aug. 2023 – Present (Grad: 2027)

Plano Senior High School

GPA: 3.9/4.0

Plano, TX

Aug. 2021 – May 2023

TECHNICAL SKILLS

Languages: Python, C++, Java, R, JavaScript, HTML/CSS

Libraries: Matplotlib, OpenCV, NumPy, BeautifulSoup, pandas, Selenium, Tensorflow, Flask, Material-UI

Courses: Intro to Program Design, Data Structures and Algorithms, Linear Algebra, Discrete Math

EXPERIENCE

TAMU RoboMasters Computer Vision Team

Team Member

Sept. 2024 - Present

College Station, TX

- Working in a team to develop computer vision capabilities, such as auto-aim, localization, and icon detection for RoboMasters competition
- Built computer vision algorithms to detect numbers on enemy armor plates with a **90%** accuracy rate.
- Optimized algorithm to compute classification for a frame in **30ms**, a **22%** decrease in computation time compared to previous method.

Headstarter AI

Fellow

July 2024 – Sept. 2024

Plano, TX

- Over the course of 7 weeks worked on 5 AI related projects in a team of 4 developers.
- Participated in Hiring Hackathon and placed top 20 among 500 teams.
- Used Flask, OpenAI, Stripe, Firebase, Clerk, and other technologies to develop full stack web projects.
- Received feedback from software engineers, improving code quality, project management, and communication skills

Aggie Research Scholar Program

Researcher

Aug 2024 – Sept. 2024

College Station, TX

- Under the guidance of PHD students, worked on insole gait analysis and fall prediction using sensor data.
- Cleaned and prepared data for analysis and fed to pose estimation models.
- Performed analysis along other team members to detect falls and analyze gait patterns of construction workers.

CareNow Pharmacy

Pharmacy Technician

May 2024 – Sept. 2024

Plano, TX

- Utilized pharmacy software systems for data entry tasks, inventory management, and prescription entry
- Collaborated with healthcare providers to clarify prescription orders and ensure optimal patient care.
- Provided exceptional customer service, addressing patient inquiries regarding prescriptions, dosage instructions, and insurance coverage

PROJECTS

H.AI.R | *Python, Flask, Hugging Face, HTML, CSS, Vercel*

July 2024

- Developed a full-stack web app to recommend hair care products to users based on their hair type.
- Utilized Hugging Face models to classify hair types.
- Leveraged Flask framework and Vercel deployment for fully functioning app.

Color Detector | *OpenCV, Python, Numpy, PIL (Python Imaging Library)*

May 2024

- Utilized OpenCV and PIL to develop a Python script to live detect colors in a video feed.
- Used Numpy to simultaneously store and manipulate pixel data before detection.
- Leveraged PIL's built in bounding box detection to outline regions of colors that are detected.
- OpenCV functions were used to perform dilations and masking to easily detect colors.

LLM Rate My Professor | *Google Gemini/PaLM API, Python, Selenium, Flask, HTML, CSS*

Dec. 2023

- Developed a full-stack web app to summarize Rate My Professor reviews.
- Utilized Selenium to scrape all reviews for a given professor.
- Leveraged Google's Gemini LLM model to summarize scraped reviews into coherent summaries.

EXTRACURRICULAR

Aggie Coding Club: Took part in weekly meetings, workshops, projects, and social activities

TAMU Hack: Attended several of their hackathons

Headstarter Hiring Hackathon: Participated in weekend hackathons for internship positions.

CERTIFICATIONS

Machine Learning with Python: Coursera May 2024

Introduction to Generative AI: Google June 2024

Introduction to R: DataCamp August 2024
